

Outdoor

The SPAX solution for boardwalks, bridges and commercial decks

T-STAR plus

Cylindrical head

Ground serration

Fixing thread

CUT point

Long lasting connections for timber and composite boardwalks.

The SPAX Advantages

- Proven in many landmark projects globally
- Cost savings due to minimal ongoing maintenance
- No need for retightening screws due to fixing thread
- No risk of trip hazards from protruding screw heads
- A4 316 Stainless Steel for highly corrosive environments
- Designed according to ETA 16/0617

Please ensure timber is sealed on all sides before installation or exposure to weather.

Pre-drill with SPAX step drill 6 over the entire screw length.

Fasten with SPAX T-STAR plus T40.

Impeccable visual appearance with minimal splitting effect. Long lasting connection with minimum movement due to fixing thread.

SPAX Boardwalk Screw 8mm Stainless Steel A4/316
